THE Hunt anti-sure-thing bill was signed by Gov. Leslie yesterday and goes into effect on Monday. The next thing is to procure a thorough enforcement of the law, which would effect a marked pride is assuring Helenaites that the Silver reformation in upper Main street.

A SMALL fusilade of popcorn oratory was heard in the council chamber yes-

price is \$85,000, which is not looked upon as being exorbitant by the trustees of the club. The only hitch remaining is the matter of the rate per cent. on the deferred payment. Mr. Clark wants \$25,000 cash and the balance to be paid in five years at eight per cent. Interest per annum. The club only wants to pay five per cent. It is proposed to reorganive the club into an incorporated association.

The Clark mansion would indeed make the most palatial club room in the northwest. Every room is finished in a different kind of hardwood, and the finishings and furnishings cannot be excelled in any residence in the country. An electric dynamo, boiler and steam heating apparatus are features of this elegantly appointed residue. bill at a time when it appeared impossible of accomplishment.

JOHN E. KENNA has been re-elected to the United States senate by the legislature of West Virginia after a contest lasting nearly six weeks and which has been marked by an exceeding bitterness of spirit. The democrats had a majority of one on joint ballot, but until yesterday it was impossible to poll the united vote of the party for Mr. Kenna,

A MISSOURI man is the first to resign the "clean sweep" which is expected to begin immediately after March 4. His name is George C. Heard, a brother of the representative in congress for the Sixth district of Missouri, who has held the office of chief of the bureau of review in the general land office. He did net care to await his discharge.

with the efficacy of the bill should it become a law. The printed copies of the law, while being much cheaper than certified copies would be, will answer all purposes. President Cole and Blazer Brown were the only members who opposed that particular amendment, the former professing to have discovered some attack upon "the purity of the ballot" in the plan to save the territory a needless expenditure of several hundred dollars a year. Blazer Brown's opposition came from the fact that the From the answers received it would seem amendment was offered by the member | that the placing of wires under ground has for Jefferson county.

THE atrabilious New York Sun closes an editorial tirade against President Cleveland's administration by praising Secretary Whitney, who, the Sun says, "has laid his hand sternly and faithfully upon the old and revolting abuses of his department. He has proved himself a true American and a genuine democrat. When he retires from office there is no democrat but will cherish the hope that at some future day Whitney may have another opportunity to render important services to his party and his country." But should such a thing happen as that Mr. Whitney should be elected to the presidency in 1892 the Sun would be as ready to vilify him as it has been to misrepresent and defame Mr. Cleveland. The Sun is only happy when it is bespattering the reputation of a public man.

The second officer also states that the rumor gained considerable currency at Port DePaix that Hippolye had been killed by a northern soldier, who received \$2,000 for the job. But should such a thing happen as that

THE Inter Mountain asks the INDE-PENDENT to explain why the house joint resolution upon the subject of the admission of Montana to the union was opposed by democrats in the council. A reading of a report of the council proceedings when that subject came up The man entered the tool box and almost will show that the bill was opposed by Councilmen Middleton and Bickford because it thanked congress for eliminating certain provisions from the admission bill without specifying what those provisions were. The democratic memory of a mile were shattered by the concussion. provisions were. The democratic members were willing to have congress memorialized upon the subject in a specific manner, and so expressed themselves. The Question of Under Ground Condolts for Electric Wires From two Sides. CHICAGO, Feb 21 .- In the National Electric Light convention to-day Lynch, of New York, chairman of the committee appointed at the last meeting to obtain statistics and facts on the underground system, reported that the committee had communicated with nearly all the Electric Light companies in the United States. proved a failure in most if not all instances. City Electrican Barrett, of Chicago, took exceptions to the report. The underground system of conduits in this city was a success and the municipality proposes to extend it. The system has been in operation nearly six years. As regards electric light wires and telegraph wires, Mr. Johnson, of Philadelphia, endorsed Barrett's position, and argued that the report should be reversed.
